

CONTENTS

PREFACE

Workshop SADUE13: Ambient Intelligence in Metropolitan Regions AIMR <i>Wolfram Luther</i> _____	1
---	---

COLLABORATIVE SYSTEMS

Implementing Situated Learning Applications Using Cloud Services <i>Nelson Baloian and Gustavo Zurita</i> _____	8
Understanding Collaboration in Healthcare <i>Valeria Herskovic, Carolina Fuentes, and Cecilia Saint-Pierre</i> _____	26
Business Process Elicitation in a Mobile Collaborative Environment with an Agile Methodology <i>Nelson Baloian, José A. Pino, Carlos Reveco, and Gustavo Zurita</i> _____	37
Using Unconventional Awareness Mechanisms to Support Mobile Work <i>Álvaro Monares</i> _____	48
Doing Research in Partially Virtual Communities <i>Francisco Gutierrez</i> _____	56

HUMAN COMPUTER INTERACTION

Ambient Intelligence in Metropolitan Regions: A User Interface Per- spective <i>Benjamin Weyers</i> _____	68
---	----

CONTEXT AWARENESS & UBIQUITOUS COMPUTING

Towards Critique-Based Context-Aware Recommendation in Metropoli- tan Regions <i>Tim Hussein</i> _____	; 2
A Context-Aware Positioning Model to Support Ubiquitous Applica- tions <i>Daniel Moreno Córdova and Sergio F. Ochoa</i> _____	98

Mobile and Ubiquitous Computing: A Brief Summary of the Current Projects	
<i>Sergio F. Ochoa</i>	10;

CULTURAL HERITAGE & VIRTUAL MUSEUMS

Cultural Heritage in Metropolitan Areas Using a Virtual Museum Framework	
<i>Daniel Biella</i>	133
Virtual Museums: From Content Creation to Presentation	
<i>Daniel Sacher</i>	147

ENERGY MANAGEMENT SYSTEMS

Challenges and Chances	
<i>Song Liu</i>	164

RELIABLE COMPUTING & UNCERTAINTY

Reliable Computing in Modeling and Simulating Software	
<i>Wolfram Luther</i>	16:
Probabilistic Models with Uncertainty	
<i>Gabor Rebner</i>	194
Building Suitability Maps Using Incomplete and Uncertain Context Information	
<i>Jonathan Frez, Nelson Baloian, and Gustavo Zurita</i>	209
