<b>Table of Content</b>	1
<b>List of Figures</b>	5
<b>List of Tables</b>	7
<b>Summary</b>	10
<b>Abbreviations</b>	12
<b>Chapter 1: Introduction</b>	
Introduction	13
1.1. Global Agriculture	14
1.2. Agriculture in arid and semi-arid areas	15
1.3. Agriculture in Jordan	16
1.3.2. Agriculture Policy	17
1.3.3. Farm Problems	18
1.3.4. Impact of Human Activities	18
1.3.5. Modern Agricultural Management Techniques	19
1.4. Water as a global agricultural problem	20
1.5. Water issues in Jordan	21
1.5.1. Water resources	21
1.5.2. Water Quality	26
1.6. Objectives of the Research Work	27
1.7. Structure of the thesis	29
<b>Chapter 2: Review of Literature</b>	
2.1. Introduction	31
2.2. Land Degradation	32
2.3. Soil Fertility and Agriculture Production	34
2.4. Geoinformatics in Land Degradation	37
2.5. Remote Sensing and Image Interpretation	38
2.5.1. Pixel-Based Image Analysis	38
2.5.1.1 Supervised classification	39

2.5.1.2. Unsupervised classification	41
2.5.2.. Object-Based Image Analysis	41
2.5.3. Accuracy assessment	42
2.5.4. Digital Change Detection	43
2.6. Issues Image processing	45
2.7. Methods Modeling surface and subsurface	46
2.7.1 Groundwater Vulnerability Assessment Methods	47
2.7.2 Soil Degradation Assessment Methods	49

### **Chapter 3: Study Area and Materials**

3.1. Introduction	53
3.2 The Research Site	54
3.2.1. Selection Criteria	54
3.2.2. Study area Location	54
3.2.3. Climate	55
3.2.4. Topography	56
3.2.5. Geology	57
3.2.6 Soil	58
3.2.7 Hydrology	49
3.2.8 Hydrogeology	60
3.2.9 Historical of Land Use	61
3.3. Materials	62
3.3.1. Remote Sensing Data (Satellite Data)	62
3.3.2. GIS Data	63
3.3.3. Secondary Data Collection and Analysis	64
3.3.4. Fieldwork Data	65
3.3.5. Software and Hardware	66

### **Chapter 4: Methodology**

4.1. Introduction	67
4.2 Methods	68
4.2. Remote Sensing Processing	68
4.2.1. Image Pre-processing	68

4.2.2. Geometric correction	70
4.2.3. Geo-referencing for the satellite data	70
4.2.4. Monitoring of Residential Areas	71
4.2.5. Spatial Resolution	71
4.2.6. Processing bands	72
4.3. Data Validation	76
4.3.1. Royal Jordan Geographic Centre Data	76
4.3.2. Quantification of the Change in Land Use	76
4.4. Image Analysis	78
A. Image Classification	79
B. Training Sample Selection	80
C. Accuracy assessment	80
E. Change Detection	81
4.5. Fieldwork & Laboratory Analysis	81
4.6. Social Economic Data (Questionnaire: Interview with Farmers)	82
4.7. Farming Activities	84
4.8. Water and Soil Sampling	88
4.8.1 Groundwater Data	88
4.8.2. Soil Data	90
4.9. Descriptive statistics	93
4.10. Modeling Process	93
4.10.1. Mapping Groundwater Vulnerability Using Geoinformatics	94
4.10.2. Land degradation Model	98
4.11. Intersect Process	116
<b>Chapter 5: Results</b>	
5.1. Introduction	117
5.2. Image Analysis	118
5.3. Field Survey and Laboratory Analysis	121
5.3.1. Physical and Chemical Properties of the Soil	121
5.3.1.1. Physical Properties	121
5.3.1.2. Chemical Properties	124
5.3.2. Chemical Properties of the Groundwater	128

5.4. Validation Hydrochemistry Data	134
5.5. Salinity and alkalinity hazard on the soil	134
5.6. Groundwater and Degradation Lands Modelling	135
5.6.1. Groundwater	135
5.6.1.1. The DRASTIC vulnerability index	141
5.6.1.2. Outcomes of DRASTIC Index development	142
5.6.1.3. Groundwater Vulnerability and Land Use	145
5.6.1.4. Calibration method between groundwater vulnerability	146
and SAR	
5.6.2. The Results Development of Lands Degradation	148
5.6.2.1. The Degradation Index	155
5.6.2.2. Validation of Results	156
5.7. Hot-Spot Areas between Vulnerability of Groundwater and Land	162
Degradation	
5.8. Strategies of Management Risk	163
5.8.1. Groundwater Vulnerability	163
5.8.2. Land degradation	163
5.8.3. Proposed Management Plan for the Farmers	164
5.8.4. Proposed Management Plan for government	165
5.8.5. Managing the soil salinity	165
5.8.6. Managing sodic of irrigation water	166
<b>Chapter 6: Conclusions and Recommendations</b>	
6.1. Introduction	167
6.2. Limitations and Recommendations	169
6.3. Conclusions	171
References	172
Appendix	195
