CONTENTS

Learner Control in Personal Learning Environments: A Cross-Cultural Study
Ilona Buchem, Gemma Tur, Tobias Hoelterhof 11

A pedagogy-driven framework for integrating Web 2.0 tools into educational practices and building personal learning environments
Ebrahim Rahimi, Jan van den Berg, Wim Veen 34

Bridging Personal Learning Environments: Interfacing personal environments and Learning Management Systems: The example of a bookmarking tool
Tobias Hölterhof, Richard Heinen 50

Gamifying Quantified Self Approaches for Learning: An Experiment with the Live Interest Meter
Benedikt S. Morschheuser, Verónica Rivera-Pelayo, Athanasios Mazarakis, Valentin Zacharias 66

The mobile as an ad hoc PLE- Learning serendipitously in urban contexts
Ruthi Aladjem, Rafi Nachmias 79

An exploratory study of the personal learning environments of security and investigation professionals
Antony E. Ratcliffe 87

Connected older adults: conceptualising their digital participation
Linda De George-Walker, Mark A. Tyler 105

Innovation, knowledge and sustainability with PLEs: an empirical analysis from SAPO Campus Schools pilots
Fátima Pais, Carlos Santos, Luís Pedro 113

Personal Learning Environments in Smart Cities: Current Approaches and Future Scenarios
Ilona Buchem, Mar Pérez-Sanagustín 134

Decentralized badges in educational contexts: the integration of Open Badges in SAPO Campus
Carlos Santos, Luís Pedro, Sara Almeida, Mónica Aresta 153
CONTENTS

Using Gamification to Improve Participation in a Social Learning Environment
Jorge Simões, Rebeca Redondo, Ana Vilas, Ademar Aguiar 167

Using PLEs in Professional Learning Scenarios – The Festo Case for ROLE
Maren Scheffel, Manuel Schmidt, Michael Werkle, Martin Wolpers 185

Investigating teachers’ perception about the educational benefits of Web 2.0 personal learning environments
Ebrahim Rahimi, Jan van den Berg, Wim Veen 198

Personal learning environments: a conceptual landscape revisited
Sebastian H.D. Fiedler, Terje Väljataga 217

Beyond books: The librarian, the research assignment, and the PLE
Alison Hicks 232

Reflecting the Learning Process Using LAMA
Helena Dierenfeld, Agathe Merceron 239

PLE as an Assessment for Learning Tool in Teacher Education
Carmen Arbonés, Isabel Civera, Neus Figueras, Cristina Montero, Salvador Rodríguez, Theresa Zanatta 247

Personal Learning Environments for Inquiry-Based Learning
Alexander Mikroyannidis, Alexandra Okada, Peter Scott 255

New Potentials of Hypermedia Video for Gathering and Providing of Procedural ‘Knowledge’ in Industrial Environments
Robert Strzebkowski, Alexander Schulz-Hyen, Sven Spielvogel, Sebastian Riedel 265

Personal Information Spaces are the students’ first and foremost PLE
Sharon Hardof-Jaffe, Rafi Nachmias 280
CONTENTS

Case-based Workflow Modeling in Support of Automation the Teachers’ Personal and Social Behavior
Malinka Ivanova, Mirjam Minor ............................................................................................................. 295

A theoretical analysis of the socio-material entanglement of Personal Learning Environments and its methodological and pedagogical implications
Sabine Reisas ........................................................................................................................................... 307

Do you want to connect? Recommendendation strategies for building Personal Learning Networks
Kamakshi Rajagopal, Jan van Bruggen, Peter B. Sloep ........................................................................ 321

PLEs and epistemological practice – The meaning of Self organization competency for PLE based learning
David Kergel ............................................................................................................................................ 328

ThirdSpace: orchestrating collaborative activities in PLEs for formal learning
Yvan Peter, Eloy D. Villasclaras-Fernández, Yannis Dimitriadis ................................................................ 338

Technology Enhanced Textbook Provoking active ways of Learning
Wolfgang Neuhaus, Jürgen Kirstein, Volkhard Nordmeier .................................................................... 348

The university-wide introduction of an ePortfolio system as transdisciplinary task: Results of an implementation process and perspectives on an optimized process model
Jörg Hafer, Alexander Kiy .................................................................................................................... 361

Design as Inquiry: Socially shared PLEs by the example of collaborative note taking. A speed design process.
Heidrun Allert, Sabine Reisas .............................................................................................................. 372

Social badges dynamics in institutional supported platforms
Carlos Santos, Luís Pedro, Sara Almeida, Mónica Aresta ........................................................................ 374

PLE Monitor
Ismael Peña, Eva Gil, Raúl Romero, José Mora .................................................................................... 376
