Editorial

Dear Readers -

We are extremely pleased to offer you the first edition of a scientific journal called *Cultural Management: Science and Education (CMSE)*, created on the initiative of research staff and teaching faculty at the University of Dąbrowa Górnicza, Poland. Our journal, which is published by Logos Verlag Berlin – Academic Books for Sciences and Humanities (Germany), is a peer-reviewed professional journal dedicated to the advancement of best practices and the latest thinking in cultural management, including the results of basic and applied scientific research by international authors in the English language.

While developing the foundations for the journal, we have tried to ensure that it takes the form of a platform for sharing knowledge and experience, for passing on information, and, above all, that it is an invitation to undertake joint scientific initiatives and research assignments. We will therefore publish results of the latest research, case studies, reviews of existing theories, book reviews, and articles referring to important research areas in the sector of culture that require detailed consideration.

We hope that you will find the articles in the journal an interesting read, that they inspire new research, and that the results will find use in practise. We wish you a good read, and also encourage you to participate in the preparation of subsequent issues of *Cultural Management: Science and Education*.

GUIDANCE ON THE COMPOSITION AND STRUCTURE OF PAPERS SUBMITTED TO CULTURAL MANAGEMENT: SCIENCE AND EDUCATION

Articles should be written in English, in a clear, succinct and accessible manner. Authors must sign upon submission for review a statement indicating that the submitted work is their original work, complies with the ethical guidelines for research in the area of study, and is not under publication consideration elsewhere. Breaches of ethical standards will result in immediate withdrawal of the manuscript from review, notification of the breach to journal readers and other affected parties (e.g., other journal where work published or under review; original author of work).
